A list of documents to be published on the face of any patent granted from this application is submitted herewith on PTO/SB/08B (substitute to PTO-1449); these references were forwarded to the PTO by applicants in connection with their provisional app. to which priority was granted herein. A copy of each non-U.S./foreign patent document, or each publication or portion thereof listed or herein identified, is being submitted herewith, *except that* NO copy of any U.S. patent application identified herein or any patent, publication or other information listed herein cited or submitted in a prior application relied upon for an earlier filing date under 35 U.S.C. §§ 119 & 120, and NO hard copy of each U.S. patent and U.S. published patent app.<sup>1</sup> listed, is being submitted herewith.

---

<sup>2</sup> See, MPEP § 609 III. B(1)(a), Likewise, an information disclosure statement will be considered if it is filed later than 3 months after the application filing date but before the mailing date of a first Office action on the merits. An action on the merits means an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merits would, for example, contain a rejection or indication of allowability of a claim or claims rather than just a restriction requirement . . . or just a requirement for additional fees to have a claim considered . . .
